## SUMMARY

From a young age I've always been into tech. From tinkering with our PC in the living room, or watching every single Apple WWDC keynote and even building video games using unity at age 12. Now being a Web Developer, I am always looking for opportunities to challenge myself and grow. Because I have the goal to improve peoples lives with technology to the best of my abilities. Below you'll find projects I've completed that showcase my skills and general background in developing software.

## EXPERIENCE

### Designo

<https://designo-d9d71e.netlify.app/>

A multipage website built using React and Sass. This was a great project to sharpen my CSS skills without using any frameworks. It also made me a lot more comfortable using SVGs in my projects

- Built from scratch using React and Sass
- Fully responsive with the use of Flexbox and CSS grid

### Pokédex

<https://pokemon-pokedex-4ah7.netlify.app/>

This web app allows users to look up detailed information about their favorite Pokemon.

- Consumes data from the PokeAPI and displays it in a visually appealing UI
- Utilizes React Hooks in order to make the state more manageable and to make the overall code cleaner
- Implemented a Infinite Scroll feature using a React library

### Movie Search

<https://movie-search-464185.netlify.app/>

A website to look up any movie you want and get a short plot description along with a trailer of the movie.

- Consumes data from the IMDb API and displays it in a visually appealing UI
- Implemented a feature that allows you to search a movie from the API
- Includes the use of the React Youtube library in order to watch the trailers of the movies

## TRAINING / COURSES

### Front End Web Development (Treehouse)

60 Hours

### The Complete JavaScript Course (Jonas Schmedtmann)

95 Hours

### The Web Developer Bootcamp (Colte Steele)

63 Hours

### The Modern React Bootcamp (Colte Steele)

40 Hours

## SKILLS & TECH

### Languages

JavaScript

HTML5

CSS

### Tools and Libraries

React

Material-UI

Bootstrap

Git

jQuery

Sass

Tailwindcss

RESTful APIs
